this book was assigned to a class i had in college 3 years ago. the class was Racial and Ethnic Groups which was a Sociology class. It gives excellent, well-written essays on various racial/ethnic groups. The book is truly a must have. This book unlike others gives an account of many groups in the U.S.

I was very happy with the overall experience I had with this text book. I received the book on time for my class and it was in perfect condition. I recommend that you save the original packaging that it comes in if you are planning on returning the book (if you rent the book instead of purchasing as I did). The return process is also very simple and easy to do. I would for sure recommend this product to anybody in need of the book!

i received the book, The item was described as having no rips or tears, however it had a few tears on the bottom. the item also said minor highlights, however at least half the book is highlighted. other than that i had no problems
