Customer Reviews

I agree with B. Schumacher. This is ostensibly a 94 page RPG supplement, but pages 1-75 are pure fluff, and there's only 7 pages (covering exorcisms) of what could be called "new" material. As a novella, the fluff is decent, but no better than 2-3 stars, however the scarcity of content for an RPG supplement means this would warrant a 0.5 stars if I could give it :(

This book has some very well-written short stories depicting exorcists in the World of Darkness, and if that's what you're interested in along with some decent background information and research into how exorcists operate in the modern world it's well worth the read. If, on the other hand, you're looking for new backgrounds or numina or stats or merits/flaws, and other abilities for characters to use in their fight against Demons this is the wrong book. There's about 3 pages dedicated to that stuff, and all a bit underwhelming. If that's the sort of thing you want, I'd recommend a VtM supplement called The Inquisition. I rated this book poorly because I view it as a gaming supplement without any gaming content. If I were to rate this item as a fluff book, it'd be rated 1-2 stars higher. But overall still not too impressive.
