## Customer Reviews

In giving an honest review, I must say that I imagine most people would be somewhat disappointed with this book, though it is not downright terrible by any means. There is not much information

presented. The first 16 pages of content are very basic information on spells. More detailed information on such basic things as what a spell is, how the moon might be involved and so on are free throughout the internet. I also have qualms with a stance taken by the author. They claim that love spells are 'white magic' spells, or in other words that controlling others is ethically acceptable, simply because the subject is love, and love is a good thing. I'm not sure if this is a flimsy justification for the guilty mind or just very poor logic, to put it gently. Either way the novice witch should be informed in a more honest and straightforward fashion than this, so that they can do what they will - but as informed decisions, not rationalized blurry lines. I disagree with a few more little things here and there, but I'm not going to nitpick it to death, because: The bulk of the book is simply various spells, and this is indeed a 'book of spells,' so this should be the weight of the review. Even here, though, I can't bring myself to award more than two stars. The spells are extremely simplistic. Some of them are nothing more than saying a sentence and wanting it to be true. For example, the 'Realistic Dream Spell' involves relaxing and finding inner peace (no more detail than this is given), and then saying, "I like my thoughts and I like my dreams, so let me make my feel real," before going to bed. And that's the entire spell. I'm not sure if this particular spell was a typo, or if 'feel' was meant as a noun.
