Canine Clinical Parasitology

Note: This is not the actual book cover

Synopsis

The diagnosis, epidemiology, treatment and control of parasites afflicting the canine are fully discussed in the first ever text dedicated solely to the subject. Each parasite is presented by zoological classification, with clear, concise exposition detailing the life history, injury to the host, role as a vector to the disease and representative hazards to the human population. More than 200 never before published visuals, including 72 full colour photographs make this an atlas of canine parasitology that will be referred to time and time again.

Book Information

Hardcover: 225 pages

Publisher: Lea & Febiger (November 1991)

Language: English

ISBN-10: 0812114698

ISBN-13: 978-0812114690

Product Dimensions: 0.5 x 7.5 x 10.5 inches

Shipping Weight: 1.8 pounds
