Came through the mail faster than expected. The Codex is in great condition as described and doesn't have any blemishes or mark. The book has a feel of being used from it not being that hard to open, but looks to still have a long shelf life ahead of it. Indeed this Codex for Space Wolves is out of date and a few things in it are not even used anymore, but it's a great add-on to any Space Wolves collection as a history piece. It adds wonderful side stories and gives more insight on the workings and temperment of the Space Wolves chapter. As far as suggestions for who should get this, if you think you want it then get it. But truly this is a vintage piece and isn't for modern matches. (Unless both players agree to play an interesting match against/with vintage Space Wolves)

Great resource for those that enjoy the Nordic flavor that the Space Wolves bring to Warhammer 40k. Great looking army that differs from the usual Codex Astartes chapters. Until the new 5th edition revision comes out this is still THE resource for fielding a Space Wolf army.
