Synopsis

If you're ready to learn the ways of Voodoo and finally take control of your own destiny, then this book is for you! Second Edition Newly Released September 14th, 2016 Read on your PC, Mac, smart phone, tablet, or Kindle device. Most people have heard of Voodoo before, but if you think it only has to do with sticking pins into cursed dolls for the purpose of inflicting pain onto your enemies, you couldn't be further from the truth. Voodoo, or 'Vodou' as it is traditionally referred to, is a modern-day take on an ancient Haitian religion developed by African-Caribbean slave workers on island plantations during the period of French Slavery. Apart from simply being just a religion, Voodoo is actually an entire way of life which is centered around an immense respect for one's elders. This respect is further expanded towards life philosophies and spirituality, and even extends into the realm of a great respect for nature. This book is designed to introduce you to the very essence of Voodoo, and then after you have prepared yourself both mentally and physically to perform Voodoo spells and rituals, you will learn how to put into practice a very basic Voodoo spell and protection charm. While you're going through this book, it's important to keep in mind that, within the practice of Voodoo, everyone is part of the same order, so with a little bit of hard work and dedication, you too can master the art of voodoo and reap the countless benefits that come with it. I have great interest in mystical religions and Voodoo is one of those. In fictional movies, it usually goes with dark magic; yet the opposite fact can be found in this book. I actually did not read it out of ambitions to practice Voodoo, I just wanted to know and understand more about this religion. All my expectations are met. This book contains the history of Voodoo, a long one that we cannot accurately trace back. It also presents the Voodoo's nature, where we come to know the term 'Loa'. For those who are interested, this book gives instructions on how to do the spells, healing charm, protection charm and so on of the kind. It is not to harm people like some may prejudicate, it is meant to protect. Interesting read, indeed!

Voodoo is a sensationalized pop-culture caricature of voodoo, an Afro-Caribbean religion that originated in Haiti, though followers can be found in Jamaica, the Dominican Republic, Brazil, the United States and elsewhere. It has very little to do with so-called voodoo dolls or zombies. Voodoo is the source of many powerful magic spells. It has passed the test of time and is still recognized as the source of many of the world's most powerful spells. However, the best way for you to find out if it is real is to try it for yourself. This religion is also remarkable for its feeling of community and the sense of belonging from its practitioners, no matter which corner of the world you travel to. I find this book very informative and interesting.

Voodoo is something that has always caught my attention and I find it really interesting and was very curious on how it is done and if it's real. This eBook will help you and provide you a better understanding on what Voodoo is all about. A great introduction to it's history and a well-detailed explanation about it's nature practice included in this eBook. Rituals and spells are very powerful. There are several preparations that you will be needing for you to navigate these complex beginnings safely and successfully. This eBook will teach you how you can cast your very first voodoo spell and how to make your very own voodoo doll. A step-by-step guide on how you can perform a basic healing spell are provided in this eBook. Find out what these protection charms are and what are the most effective ways to create a basic protection charm bag. I find this eBook very interesting to read because it's well-written and easy to understand. Highly recommended!!!
