Manual Of Exalted Power: Sidereals

Synopsis

A Guide to the Viziers of Creation Gifted with power by the Five Maidens, the Sidereal Exalted were once the trusted advisors to the Old Realmâ™s Solar masters. However, believing the Curse-maddened Lawgiversâ™ irredeemable and unshakably convinced in their moral duty, the Chosen of the Maidens persuaded the Dragon-Blooded to rise up and slaughter their masters in order to end the Solarsâ™ depredations. Since that time, the Sidereals have influenced events behind the scenes in order to safeguard Creation from its myriad of enemies. But with the return of the Solars, the advent of the deathknights, the Dragon-Blooded Realm nearing civil war, the tribes of the Lunars threatening war and the Fair Folk massing for another assault on the shaped world, will the Fivefold Fellowship win the day or will its many sacrifices have been for naught? A character sourcebook for Exalted®, Second Edition, featuring: • Details of the Five-Score Fellowship, its goals and its factions • Everything players and Storytellers need to generate Sidereal Exalted characters • The secrets of Sidereal astrology revealed

Customer Reviews

Those not familiar with Exalted, please seek out the Core Rulebook first. The Second Edition update of the Sidereals is a superb book, made much more readable, understandable, and enjoyable by the removal of information on Yu-Shan to the Compass of Celestial Directions book of the same name. A few of the charm mechanics need fixing, but errata can be found on the White Wolf Exalted Forums or the White-Wolf Wiki.

So far I have read half the book and it is amazing! Lots of new stuff, amazing intrigues and even more paranoia for the Viziers of Creation, Charms have been adapted to new rules and that leaves em pretty ok, Many of them have been powered down and more of them defined, and the Exalted Curse laid upon them has been redefined and reviewed as to have now a system. I like the way that now Siderials are not as powerful as in the first edition where they could best a solar with no trouble. Now they are more like a celestial-type Exalted with pros and cons. Lots of stuff to do, YuShan and all Creation at their fingertips. New ideas about the Loom of Fate and a Sixth Maiden. Just have to finish it soon and I can tell it is a good supplement for a good Exalted chronicle. The only Siderial Martial Art is the Violet Bier of Sorrows. Just one Celestial Sorcery spell. Plenty of names of new gods that work on Yu-Shan (that I guess will be stat-defined in the upcoming book of Sorcery IV) So far... great book!

It is what I was looking for, and what I wanted. No problems in it's shipping, and it arrived in excellent condition.
