## Customer Reviews

Being a Mason for years, and having read many books on the subject in search of what Freemasonry was really all about, I could not help feeling, when I had finished this book, that this was it. Yes, This is Freemasonry from a Theosophical perspective. I Think it is the true perspective.

An excellent resource guide for the serious Mason who wants more than superficial rah-rah and to really understand the esoterica their lodges were based upon. Leadbeater does a fine job at bridging the gaps. Good reading!

I have read this book and really wished I had come across it earlier in my Masonic career. The author has provided us with an excellent and authoritative explanation of the esoteric meaning of

Freemasonry, albeit from a Co-Masonic and Theosophic perspective. I will strongly recommend the book to all Master Masons and above who are desirous of having the true explanation of the esoteric meaning of Masonry, as well as its true origins in the Ancient Mysteries. Unfortunately it will not be as meaningful to a non-Mason who does not possess the Masonic keys to unlock the numerous abbreviated key words in the book. The book takes account of and drills deeper down than the equally excellent explanations provided in THE MEANING OF MASONRY by WL WILMSHURST. I rate it five stars. Highly recommended Masonic reading.

If you find yourself constantly disheartened with the dumbed down nature of information we receive on a daily basis from the media... If you seek a deeper spiritual awakening and expanded perception of the universe than you have longed for, this book is a great read. Whether you take his vivid recollections of reincarnation and contact with the supernatural literally or as magnificent works of the imagination is almost beside the point. A breath of fresh air for the creative, spiritual, and intellectual mind.

Leadbeater being a Theosophist had a very deep knowledge of the inner workings of a Masonic Lodge. A very interesting book.

Compact and easy to use! This application is definitely worth your time to download and use to your heart's content.
