This Is Islam: From Muhammad And The Community Of Believers To Islam In The Global Community (This World Of Ours)

Synopsis

This is Islam offers readers an introduction to one of the world's major religions, its philosophies, and how it affects the world today. Geared to those unfamiliar with the religion and its rituals and customs-and written in clear and simple terms by one of the United States' leading scholars of religion-this volume explains Islamic law, major figures and sects, and the role of mysticism. This is Islam is designed for classroom and course supplement use. The focus is early history, not Islam today, but the book has been designed to help readers understand more recent events, keeping in mind that one of the most remarkable features of Islam is that, with a single significant exception, all lands to which it spread have remained Muslim into modern times.

Customer Reviews

Great Intro to Islam, very thorough and basic and perfect for someone not familiar with basic concepts and diversity of Islam. Am using it for my intro course. HOWEVER, this Kindle version is riddled with typos. Whoever is in charge of editing the the Kindle version needs to get there act together. Appears to be done by a computer and not a person. Typos were not likely in the original, printed version approved by the author.

I had to get this for a class on eastern civilizations but found it very interesting. It is important to understand the history of a nation and a people and the best way is to understand what means the most to them, their religion. This was brief, but thorough and i enjoyed it very much.

I read this book for an eastern civilizations class, and although the content was a touch Dry, it was very clear and well explained.

I mean it's informative. But boring as all hell.
