Customer Reviews

This volume is hot off the presses so I have not yet had time to review it. That being said, I fully expect it to be up to the same extremely high quality as the others, which I have been buying, one at a time, as they have been released. In addition to the beautiful production quality you are really getting two books in one. If you open the book right to left, in the Hebrew way, you find pages of text and commentary in the traditional Vilna style except the text has vowels! Opening from left to right you find the vowelised text with clear English translation and Steinsaltz's commentary plus wonderful pictures and illustrations. A spectacular presentation of a timeless work.

Outstanding publication of this portion of the Talmud. This volume is consistent in quality with its previously published volumes. I look forward to the next volume. This is what lifelong study is all about.
