Customer Reviews

i can't believe no one ever reviewed this book i owned it years ago, in the 90's and from the moment i picked it up i could not put it down. RAR was hands down the best source book i ever read for werewolf (apocalypse) the entire book made you feel as if an ragedon was months away and that it was unavoidable. it really made a lot of comparisons to how americans viewed soviet russia during the cold war, with how the garou outside of russia viewed those stuck (trapped) behind the iron shadow (nod to the iron curtain) it was by far the darkest themed book werewolf had, and if you ever read the Silver Crown, this book gave an all new depth to the character Arkady, and what he had to do to escape Baba Yaga's reach. i think the new forsaken series (or new WOD in general) could probally have something similar to this story arch, given the actions Vladimir Putin has taken to consolidate the kremlin's power (as of september 2006) or better yet they could give a peak into the world of Kim Jong-il and the DPRK (north korea)
