Customer Reviews

I have always been fascinated by Wicca and religions that are based on older pagan beliefs. I have

found that many of them address areas of spirituality that other religions do not. This is a great beginner's guide to Wicca, and will cover all of the basic beliefs, and much of the mythos. There are also a handful of spells that are suitable for the novice to practice with. If you are interested in learning to cast magic, then this book will help you get started.

This book is a great basic resource! I bought it on a whim honestly, just because of curiosity. I have to say though, that i really enjoyed the read and learned a LOT that i didn't know before. If you're at all interested in wicca, this could be a good read for you. It isn't a super comprehensive book, but great for the beginner.

I downloaded this book and was very impressed with the knowledge. I'm still learning about wicca and magic but this is definitely one of the most informative sources I've read on this topic.

This book helped me understand the religion my religion a little bit better. I have more understanding than I did.
