Synopsis

This is a book series list that's made for your kindle. It is a simple to follow checklist that consists of all of James Rollins' work. This book is free with an Unlimited subscription. This Series List consists of: The Banned and the Banished BooksSigma Force BooksGodslayer BooksJake Ransom BooksThe Sanguines BooksTucker Wayne BooksStandalone NovelsAll of the information is available on the authors website. This kindle only list allows you to conveniently look at all of the author's work without having to be connected to the internet. This list does comply with the United States Copyright Office circular 34 as it is just a title list showing what year the books in each series and stand alone novels were published. My hopes are that this list is helpful when choosing your next James Rollins book to read.

Customer Reviews

Every so often you run across an idea or an accomplishment or a service offered by someone that is so simple and forward that when you examine it, you slap yourself on the forehead and ask yourself, "now why didn't I think of that!" And so it is with this little book list and the others in

this series! Between my wife and myself we read well over 400 to 500 books per year; many of these books are novels and many are parts of a series by particular authors. Some of the series books have just a few published while others have dozens and dozens. We both have found, through many years of trial and error that many of these series books really should be read in order in order to enjoy them more; indeed, in many cases, to simply be able to understand them. Now this review is for the published books, by series, of the author James Rollins and is a good example of what the creator of this series has done for dozens of authors. These are simple list books which is precisely what we wanted. You get the name of the book, what series it belongs to and the date of publication. No summations of each book (thank goodness), no whistles and bells and no digging through useless information. Much of the information found in this book can be found via search engines on your computer. We have found though that quite often these lists are not kept up to date and truth be told, are a pain in the hind quarters to find and interpret at times. Also, unless you print the list you finally find, it is not portable. The list book in question is automatically updated as new books are published and the author has given simply directions as to how you update your book.
